

Meet Josh

Determined. Bright. Doesn't follow the crowd. A leader. Generous. Considerate. Athletic. Aspiring to play football in high school. Big dreams. He's your typical eighth-grader with a whole lotta life ahead of him to live. On Thursday, October 5, 2017, everything changed. Lab work resulted in Josh being sent to the hospital. A few days later, the diagnosis: Acute Myeloid

Leukemia (AML). In true Josh Brooks-style, he is marching through spinal taps, blood draws, bone marrow biopsies and more like a champ. He is strong, really strong. And his faith in God upholds him through it all.

A giving site has been developed for Josh. Click on the link below to read more of Josh's story, and to contribute.
